Why couples & planners book us

- **One band, every moment** — prelude, ceremony, cocktail hour, and a reception that fills the floor. No juggling vendors.
- **We make people dance** — including the ones who "don't dance." Motown to Bruno Mars, paced to keep energy high all night.
- **Fully self-contained** — professional reception sound plus a dedicated ceremony setup. No backline, easy on your venue.
- **Prompt, organized, easy to work with** — the part planners quietly care about most.
- **A real band, not session players** — hundreds of weddings, our own catalog, a name your guests remember.
